DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

Drawings

Figure 8 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Objections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 2 is objected to under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claim 2, beginning in line 2 and concluding in line 5 of the claim, the limitations contained within the parenthesis do not make sense grammatically or structurally in terms of defining said distance, i.e. "the distance is one, in which an image formed of the first color light having predetermined reference image information coincides with an image corresponding to the reference image information, the....".

Applicant may want to review the claim to be sure that a portion of the claim has not been omitted.

Allowable Subject Matter

Claims 1 and 3-8 are allowed.

Claim 2 would be allowable if rewritten to overcome the objection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record neither shows nor suggests a dichroic prism comprising all of the elements of claim 1 and in particular the following limitations:

“wherein the second bonded face and the fourth bonded face are arranged on the same plane, and

Wherein the third bonded face is deviated from the first bonded face by a predetermined distance”.

The examiner interprets claim 8 to include each and every limitation of claim 4.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Hashizume et al. U.S. Patent 6,411,449 B1 teaches a light selective prism, projection display apparatus using the same, and method of manufacturing light-selective prism.

Nakajo et al. U.S. Patent 6,665,123 B2 teaches a projector.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melissa J Koval whose telephone number is (571) 272-2121. The examiner can normally be reached on Monday through Friday.
